MB9

Technology for Your Business Challenge

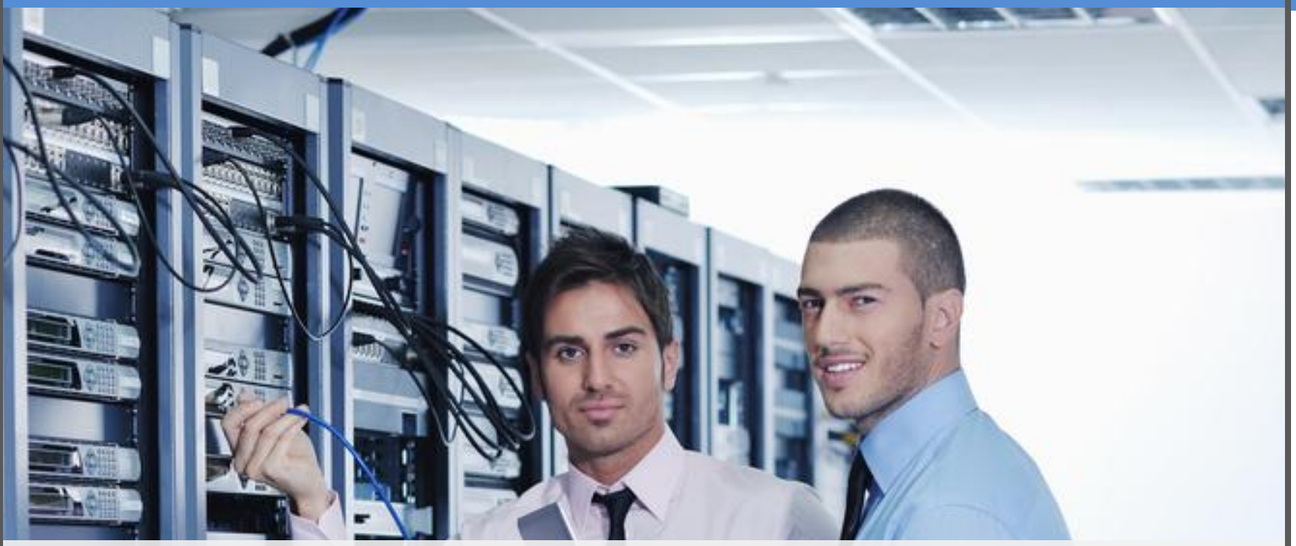
"Business Software is moving from in-house to cloud based solution, where companies can focus on business and ignore IT overhead for managing their business software. MB9 is a pioneer in cloud and mobile based solutions since its inception."

Introduction

MB9 is a software development company focusing on mobile technologies, enterprise software and cloud solutions. We understand customer business challenges and provide solutions to stay ahead of competition.

Incorporated in Singapore on Feb 2008, MB9 was started on the vision to provide innovative solutions to enterprise clients based on cloud and mobile technologies. Started by a core group of technologists having decades of enterprise software experience, MB9 has good success in forging relationships with clients across the world.

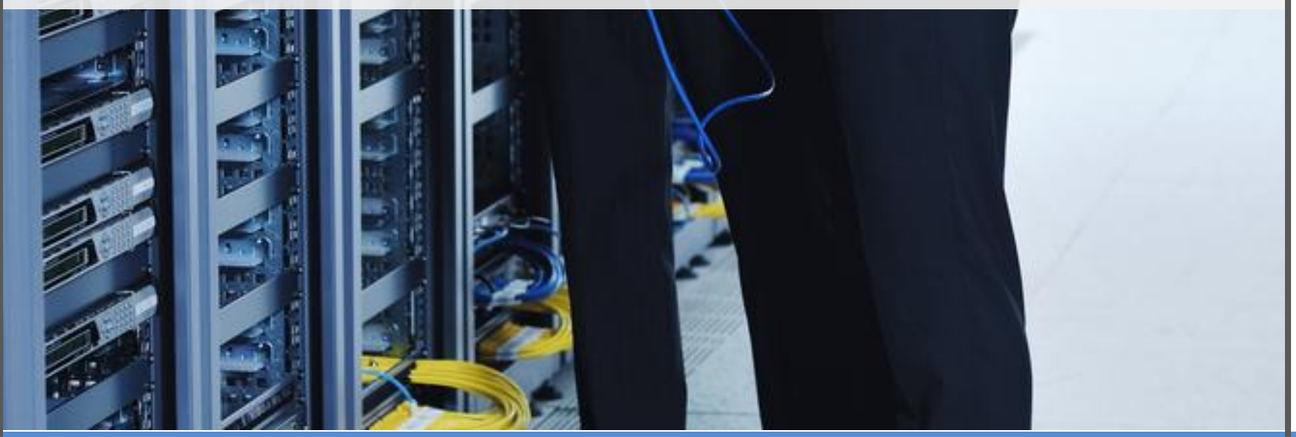
Headquartered in Singapore, MB9 has a development center in Bangalore, India. We have our business representatives in US, Middle East (Dubai) & Japan to serve the local clients. This model of operation gives us flexibility to be near our clients and also provide flexibility of scaling resources based on business demand.



“ We knew we needed a custom solution for our IT Helpdesk need. MB9 brought the technical excellence, guidance and ability to deliver the solution that matches to our requirement. ”

- **Yutaka Harada**

IT manager, JTB Asia pacific



Enterprise Software Development Services

MB9 provides a full range of enterprise software development services. We work with the clients to design optimum solution to business requirements by utilizing our deep expertise in technology development and integration. We provide software design consultancy, custom application development, software maintenance and enhancement services.

MB9 has helped built complex enterprise B2B and B2C solutions. We built B2B travel marketplace engine for **JTB**. We added new features for **Verint Impact 360** - a back office optimization solution from **Verint**. We have developed B2C solutions for global MNCs **Proctor & Gamble, IDC, Singtel, BMW** and more.

MB9 at its core is technologist, we has helped our client to solve complex technology problems. What more, we love challenges.

“When we were looking to develop our Semantic Data Browser we choose MB9 for their expertise in Software Development. They not only did a good design but also executed it wonderfully well, on time with high quality. We are delighted to have such professional partners !”

- **Geoff Chappell**

President - Intellidimension

Cloud Applications

MB9 is a pioneer in providing cloud application services to business clients. Since our very beginning we leverage on the power of cloud services in providing scalable and cost effective solutions.

MB9 has expertise in **Amazon Web Services (AWS)** and **Microsoft Azure** since these services were launched. Our flagship product **BizGenix** is powered by AWS. **Teclix** is a powerful helpdesk application – SaaS version of Teclix is powered by Microsoft Azure

Whether you are looking to leverage the power of cloud for a new business application, or you want to move an existing intranet based application to the cloud, we can advise you. Our services include cloud application development, integration with on premise business apps and software migration to cloud services.

The MB9 logo is set in bold upper case, portraying a bold young company with great growth potential and strong in character. The use of upper case font style reflects the company's strong foundation. The color of dark blue is often associated with importance, confidence, power, intelligence, that goes well to define the spirit of the company.

The sharp dash in M indicates the speed and agility. The flower (*) denotes power, the power to innovate, the power of trust we place in all relationship, and the engineering and execution power that we posses.
